

# LIGHTRONICS

## Feeling Forgotten?

Has your dimmer manufacturer forgotten you? Lightronics builds some of the most reliable rack mount dimmers on the market today. Our redesigned dimming components enhance LED operation while providing standard dimming for your conventional fixtures. No matter what your dimming requirements, we have a model that is right for you. Call or visit us today at [www.lightronics.com/t003](http://www.lightronics.com/t003) to find out why Lightronics is the only name you will ever need to know.

- RE Series** Economical dimmer that gets the job done at an affordable price.
- RD Series** Performance dimmer with softpatch, built-in chases, and saved scene features.
- RA Series** Architectural dimmer that combines house and theatrical lighting control all into one.

It's easy to get started.
