Our engineers envisioned the ultimate dimmer bar, a product that offers substantial Savings, Versatility and Reliability.

SAVINGS: Utilizing Lightronics DB series Distributed Dimming System, you can save up to 40% on materials and labor during the installation of your new lighting control system.

VERSATILITY: The DB Series is ideally suited for ALL stage applications including theaters, schools and worship facilities.

RELIABILITY: Designed to operate a minimum of 15+ years with a single removable electronics module that contains all of the electronics for easy swap out. Backed by a 5 YEAR WARRANTY!

For more information about this quality product, call or visit our website.

DB Series Dimmer Bars

- 6 Channels
- 1200 or 2400 Watts
