

Lightronics and AMX™ Working together to make your life easier.

Lightronics Architectural Dimming Systems now integrate with AMX™ Control Systems. What does this mean for you? Having a system that works as one unit allows **More Versatility and More Convenience.**

Our Architectural Dimming Systems are a great lighting control solution ideally suited for any environment including residential spaces, board rooms, worship facilities, museums, universities, government facilities, etc.. Wherever you need us we can be.

Also, our entire product line is covered by an unmatched **5 Year Factory Warranty.**

We'd love to show you how we're working together to make your life easier.

Stop by our Booth 1507 during NSCA 2006.
